PROFILE

Computer Science graduate with hands-on technical support experience and an MSc in Data Analytics in progress. Currently specializing in backend development with **Java 21** and **Spring Boot 3** through a structured, project-based roadmap. Strong troubleshooting and customer-facing communication skills; aiming for a Junior Java Developer role in Athens.

EXPERIENCE

Technical Support Representative — BFS (Nova account) Mar 2026 – Present

Athens, Greece

- Provide front-line technical support to Nova customers: diagnose connectivity, service, and equipment issues across fixed and mobile networks.
- Apply structured troubleshooting workflows and escalate complex cases with clear, complete documentation.
- Handle high daily contact volume while maintaining resolution quality and customer satisfaction.

Military Service — Clerk, 2nd Bureau, Hellenic Army (80 ADTE) Sep 2024 – May 2025

Kos, Greece

- Monitored coastal surveillance cameras and reported incidents to the Coast Guard.
- Wrote and forwarded official military signals and documents.
- Provided basic IT and network support for the office.
